

RINSELESS WASH & WAX

Quick & easy, no hose, no hassle

Griot's Garage® Rinseless Wash & Wax is a versatile, ultra-concentrated formula that allows for quick washing and protection of vehicle surfaces without rinsing. We use a unique blend of hydrophobic polymers and carnauba wax which effectively lubricates the surface, guarding paint against scratching while removing dirt and grime picked up during normal driving. At the same time, gloss and protection are significantly enhanced. Rinseless Wash & Wax is ideal for mobile detailers and DIYer's in regions where hose-and-bucket washing is restricted. It safely cleans all exterior surfaces, including paint, glass, wheels, door jambs, clear plastic, chrome, trim, rubber, cloth tops and more!

Item #:	Case Pack:
16oz, 10493	16oz. - 12
35oz, 10495	35oz. - 6
Gallon, 10497	Gallon - 4

- Safely cleans all exterior surfaces, including paint, glass, wheels, door jambs, glass, clear plastic, chrome, trim, rubber, and more
- Hydrophobic polymers & carnauba enhance gloss & protection

Body Shop Safe: No

Dilution: 320:1 Rinseless Wash
15:1 Rinse aid, gloss & protection enhancer
Clay Lubricant
Waterless Wash

pH: 7.0 – 7.5

Useful

Directions:

Shake well & work on a cool surface. Add 2 oz. to 5 gal. (320:1) of water in a Griot's Garage® Ultimate Wash Bucket. Soak a plush microfiber towel or wash pad in solution. Work from the top down and one panel at a time. Gently glide the mitt/pad over the surface, rotating often to a clean area. Frequently rinse plush microfiber/pad & agitate on bottom grill to release contaminants. Dry immediately using a PFM™ Terry Weave Towel and repeat on the next panel. If using after a standard hose and bucket wash, to enhance gloss & protection and accelerate drying, spray on vehicle @ 15:1 prior to rinse.

Tip of the

Trade:

For heavier contamination, pre-soak surface with Rinseless Wash & Wax at a 15:1 dilution or Spray-On Car Wash prior to Rinseless Wash & Wax use. For severely dirty surface, pressure wash prior to use or use traditional hose & bucket method using your preferred Griot's Garage car wash.
