Metro  Sidekick

Model: SK-1

Congratulations! You now own the most powerful compact forced air, high velocity blower dryer ever created.

The BLASTER is designed to cut drying/blowing time by as much as 75%. The BLASTER SIDEKICK dryer provides "Gentle Heat" and dramatic air velocity.

Follow these steps to use your new dryer:

1. Insert the grounded plug of the 12" power supply cord into a grounded three conductor 16/3 extension cord.

**IMPORTANT: PRODUCT MUST BE GROUNDED.
WARNING: IMPROPER CONNECTION OF THE EQUIPMENT-GROUNDING CONDUCTOR CAN RESULT IN A RISK OF ELECTRIC SHOCK!**

2. **IMPORTANT: Hold the blower by the handle.** Start the dryer by pushing the toggle switch up for on, down for off.
3. Attach or remove the neoprene nozzle or air flare attachment to protruding steel tube to control the air.

Metro  **Sidekick**

Please note:

Due to the tremendous velocity of air produced by the AIR FORCE BLASTER you may experience some air venting by the seams, this is completely normal and helps keep the unit running efficiently.

FILTER LIFE IS DEPENDENT ON USAGE. CHECK AND REPLACE WHEN REQUIRED.

CAUTION: DO NOT DROP THIS APPLIANCE. MOTOR MALFUNCTION CAUSED BY PRODUCT BEING DROPPED IS NOT COVERED UNDER WARRANTY.

EXCLUSIVE 5 YEAR MOTOR WARRANTY

Made in the USA
